

Insurance Talk

From your very own insurance adviser!

Dear **TITLE LAST NAME**

Budget News - Don't blame us!

One of the less obvious changes announced in the recent budget is a change to insurance premium tax (IPT). Insurance has not attracted VAT in the past and is currently set at 6%.

For all new and renewing policies after 1st November 2015, this rate of tax will increase to 9.5% on most general insurance policies (notably excluding Travel policies which already pay the full 20% VAT). We won't be surprised to see insurance tax and VAT converge at some time in the future.

Keeping it local - Award winning insurance on your doorstep

Locally based diB insurance was recently voted Commercial Lines Broker of the Year by the 2000 independent members of Westinsure - a leading insurance trade association. Proof if ever you needed it that buying local is still the best.
